Three Points for Consideration During the past five years the VKGWTINE has been steadily working itself into public favor, and those who were at first most increduvor, and those who were at first most incredu-lous in regard to its merits are now its most ardent friends and supporters.

There are three essential causes for those having such a horror of patent medicines, changing their opinion and lending their in-fluence toward the advancement of VEGE-TINE. Ist—It is an honestry-prepared medi-cine from barks, roots and herbs. 2d—It hon-estly accomplishes all that is claimed for it, chie from barks, roots and herbs. 2d—It honestly accomplishes all that is claimed for it, without leaving any bad effects in the system.

3d—It presents honest vouchers in testimonials from honest, well-known citizens, whose signatures are a sufficient guarantee of their earnestness in the matter. Taking into consideration the vast quantity of medicine brought businessic unity before the public through the firming advertisements in the new-paper columns, with no proper of menter genuine vantagers of the transfer of the state of the second columns. or manifesting a small degree of pride is pre-senting the following from Rev J. S. D. in ERSON D. D., the popular and ever-genia paster of the south Baptish Church, Boston.

No person can doubt this testimony, and there is no doubt about the curative powers of VEGE-NATICE, MASS., Jan. 1, 1975. MR. R. H. STRVENS:

Dear Sir - we have good reason for regarding your VEGATINE a medicine of the greatest value. We feel assured that it has been the means of saving our son's life. He is now seventeen years of age, for the last two years he has suffered from necrosis of his leg, caused by scrotuious affection, and was so for reduced that nearly all who saw him thought his recov-ery impossible. A council of able physicians could g ve us and the faintest hope of his ever railying, two of the number declaring that he was beyond the reach of human remedies, that even ampulation could not save him, as he had not viger enough to endure the operation.— Just then we commenced giving him VEGE-TINE, and from that time to the present he has been continuously improving. He has lately resumed his studies, thrown away crutches and case, and walks about cheerfully and strong
